1. PURPOSE

This document provides the list of service parts for the LIFEPAK 15 monitor/defibrillator (V4 hardware configuration only) and provides cross references between reference designators (ex. A01) used in the LIFEPAK 15 V4 Service Manual (3316925-008), and part and catalog numbers.

2. SCOPE

Scope is limited to individual parts and service repair kits which are available for service purposes for the LP15 V4 Service Manual (3316925-008). Kit contents are not listed in this document and exist in electronic bills of materials (eBOMs) in the Product Lifecycle Management (PLM) system.

3. SERVICE BOM PART

Item Number	Description
3343060-000	Bill of Material, Service, LIFEPAK 15 V4

See 3343060-000 EBOM for parts list or reference the tables in Sections 4 and 5.

4. SERVICE INDIVIDUAL PARTS LIST

Note: Reference Designators are unique identifiers for the part used to cross-reference between the Service Manual or Service Process Work Instruction and the Service BOM. The reference designators have been assigned based on the following prefix system:

- A prefix- Printed Circuit Board Assemblies (PCBAs), keypads, and modules
- W prefix – Cables, subassemblies
- F prefix – Fasteners (e.g. screws, nuts, and standoffs)
- M prefix – Plastic parts and mechanical components
- E prefix – Electrical components
- L prefix – Labels and adhesives
- K prefix – Kits, or parts assembled into a kit for a specific repair.

Note: For some reference designators, there are multiple language options (e.g. labels and keypads). Refer to the tables below to select the version that applies.
